

Field	Value
model_id	Chiaverano2018_detailed_Northern_Humboldt_1995_1998
model_sha256	11cbf610b7d2514085bd0d079b385cf9419e15308493b3a35183673553c5adb7
Input	Corrected canonical model; accepted primary recommendations of 8 October 2026.
Configuration	Unpooled never and pooled always. TE has no detritus scaling; its always call is unchanged, not a pooled TE formulation.
Restrictions	All returned overall FAIL grades retained. Pooled nonnegative SPPR does not establish convergent unpooled recycling or human approval.
