Input	Corrected canonical model; accepted primary recommendations of 8 October 2026.
Configuration	Active validated configuration: det_collapse_mode=auto for all SPPR_new-related calculations. Fresh auto GE/TE/With Egestion matrices exactly match the retained pooled always comparison. Historical never/always audit rows remain.
Restrictions	Researcher validated conditionally on 8 October 2026. All engine overall FAIL grades remain; TE PP budget failure remains. Display-only exclusions preserve original scientific groups and coefficients. model_validation/work/2026-10-08_151840_auto_review_publication/outputs/auto/run_manifest.json
